

Strike Ended.

Winnipeg, Aug. 30. Montreal, Aug. 30.—C. P. R. trackmen's strike has been declared off, an understanding between the trackmen and the company having been reached. No particulars.

THE WAR.

BRITISH WILL RETALIATE FOR MURDER OF WOUNDED.

MURDER OF BRITISH WOUNDED.

London, Aug. 29.—A despatch from Lord Kitchener dated Pretoria, Aug. 28, says: "Sworn evidence has been brought to my notice by General Buller that on June 6th Lieutenant Smith of the New South Wales Artillery, and Privates Harvey and Blunt, were shot down after surrendering at Tlokoeng near Helz. I have forwarded to Lord Roberts two copies of these statements."

The war office has telegraphed to Lord Kitchener as follows: "We understand that you have not yet received satisfactory assurance respecting the murder of our wounded at Tlokoeng. In view of the occurrence referred to in your telegram of Aug. 25, we are of the opinion that you should notify by proclamation the numbers of any commando in which such an outrage is committed, so that the names of the men who may be captured and after such occasion will be held guilty whether they actually committed the deed or not, that the leaders of the commando will be sentenced to death and that the other members will be punished with death or less according to the degree of complicity."

Anti-War Crusade in St. Paul.

Winnipeg, Aug. 29.—Winnipeg was yesterday visited by the worst hail storm in the memory of even the oldest inhabitant. For fully half an hour pellets of large size fell, a veritable rain of bullets, and proved extremely disastrous to windows, which the force of water which resulted rolled into the basements of stores and residences, doing damage to the amount of many thousands of dollars. Fortunately the storm was entirely local, and in fact was largely confined to the central part of the city. The hail of the C. P. R. tracks, west of West College, over in Fort Rouge, however, was little or no hail, but in the ruins of the houses mentioned, the ruin was most extensive, while across the river at St. Boniface the full effects were also felt.

Tuesday, Aug. 28.—Sir Wilfrid Laurier was taken for a drive on the day following by the executive of the Canadian National Association, and was entertained at luncheon at the Royal Yacht Club, where also his look put in a game of bowls. During the afternoon he paid a brief visit to the exhibition where he expressed himself as greatly pleased. He left for Ottawa tonight. Today was children's day at the exhibition and the grounds were well filled.

St. Paul, Minn., Aug. 29.—Mrs. Severance, prominent society woman of the city, was today appointed a special policeman and issued with authority to arrest malefactors. Mrs. Severance is the wife of Mr. C. A. Severance, the law partner of the late senator C. K. Davis, and is one of the most energetic and active spirits in the work of the women's society. She obtained the appointment in order to secure the authority which will enable her to carry out more effectively the aims of the society.

A gang of counterfeiters have been arrested in Oregon. Enumerators are leaving Dawson to take the Klondike census. Elmer Silvers was killed in a baseball match at Quincy, Ill.

Those eligible for the Canadian Bismarck have been selected. The Deutschland's record across the ocean was 24 knots an hour.

A marine cable has been completed between Skagway and Juneau. A steamer was damaged at Dawson on 23rd instant, without loss of life.

Fire Press correspondents have sent reliable reports of the harvest showing that 80 per cent of the crop in Manitoba is cut.

Spanish carliners attempted to prevent the British from taking a steamer torpedo boat off the coast of Spain during the fleet manoeuvres.

Investigation into the Delaware river steamboat explosion, developed the fact that of the passengers on board none are dead, two are dying, and 15 are missing.

The consolidation of the Ottawa and Pacific Junction and the Hull electric railways including the inter-provincial bridge at Ottawa involving millions of dollars, is on the tapis.

Newark, N. J., Aug. 29.—The accommodation train leaving Sussex Point which arrived in this village at 6 o'clock, was tonight derailed at the station at Fiverville, about ten miles north of here. One person was killed and twenty-eight injured.

Medicine Hat, Aug. 29.—The by-law to raise \$22,000 for heating and lighting of the town by natural gas was carried to-day by sixty-four majority.

Revelstoke, B. C., Aug. 29.—W. J. Goepel, government auditor, is here and has taken charge of the gold commissioner's office. An investigation into the irregularities is proceeding, but no details are given out yet. There is no truth in the report that Mr. Faugier, late gold commissioner, has absconded.

Denver, Col., Aug. 29.—A special from Durango, Colo., says: "By the turning over of a pullman car on the west bound Rio Grande train Monday, Mother Baptiste of Denver, mother superior of Colorado, was killed and Sister Mary Nora and Harley McCoy, also of Denver, and pullman conductor Whann were injured. The accident occurred at Tolbert sidetrack."

London, Aug. 30.—The Daily Mail published to-day an article written by Ali Nouri Bey, former Turkish consul at Rotterdam, declaring that the massacre of Armenians by Kurds which has just recommenced, is part of a regular system of extermination. He says, "The number of Armenians killed will depend upon the outcry raised in Europe and the pressure brought to bear upon the Sultan. The same arbitrary procedure will be repeated year by year till all are killed."

Waford, Ont., Aug. 29.—Mr. H. J. Pettipiece, the present liberal member for East Lambton, was re-nominated for the local legislature to-day. Mr. Pettipiece defended his course in criticising the conduct of Hon. Mr. Dryden, minister of agriculture, in investing in a ranch in a foreign country. He felt he had a right as a journalist to publish this comment in his paper and did not believe that in doing so he had injured the government and ruined the career of the minister. Mr. Dryden to a part of the country. Mr. Stratton, provincial secretary, was also present and spoke. Stratton, Aug. 29.—The city is full of Russian Anarchists, in anticipation of the Czar's visit. Two Russians were arrested here last night. The authorities tried to keep the matter secret. The rough weather prevailing renders the Czar's arrival less to-morrow improbable. A large demonstration in honor of King Christian has been arranged for Sunday. It promises to be the greatest display of its kind witnessed in years. Delegations from all sections of Denmark will pass in review before the police after which there will be a great meeting and banquet. The king will personally open the rigsdag in October.

EDMONTON BULLETIN, AUGUST 30th, 1901

THE VACANT JUDGESHIP.

The vacancy on the bench of the supreme court of the Northwest Territories occurring through the death of Judge Rouleau, requires to be filled without delay. For some years there has been a demand for an additional judge for the Territories. Whether a sixth judge is needed or not may be arguable, but there is no question about the urgent need of five, the number at present allowed. It will be remembered that the judicial division of North Alberta includes Calgary and Red Deer as well as Edmonton. As the vacancy occurred in this judicial division it is only right that the appointment should be made from here. Furthermore, the district has a member of the legal profession in every way fitted—as well as entitled by all the usual rules—to the position in the person of Mr. A. L. Sifton, of Calgary, the present Territorial commissioner of public works. Mr. Sifton has practiced law in the Territories for many years and occupies a prominent place in the profession. On his comparatively recent entry into Territorial politics he became commissioner of public works and has discharged the duties of that office with rare ability. Of long experience in the Northwest, prominent in his profession, of irreproachable character and acknowledged ability, no more suitable or popular appointment could be made.

WITH THE TREATY COMMISSIONERS.

Mrs. McClelland returned Wednesday from a trip through the north accompanying scrip commissioner Conroy and Dr. Edwards, who left here on the 29th of March to pay treaty and scrip to the Indians and half-breeds in the newly acquired districts of Athabasca and Mackenzie river. The treaty party consisted of H. A. Conroy, Dr. Edwards, John S. Edmondson, Corp. Fitzgerald and Const. McClelland, with scrip lawyers (Bosson, Maroney and McClelland. The first named was for Ross Bros, the second for McDougall & Secord, while Mr. McClelland fought for himself. The different points of payment and the number of scrip issued at each were:

Lesser Slave Lake,	29
Sturgeon Lake,	8
Dunvegan,	22
St. John,	2
Peace River Crossing,	25
Wolverine Point,	10
Vermilion,	6
Fort Chipewyan,	4
Fort Smith,	16
Resolution,	20
Wabasca (probably),	72

The greater number of each scrip, only about a dozen in each scrip being taken, owing to the difficulty of procuring the half-breed to locate. As high as \$150 was paid.

Mr. McClelland accompanied the party until McMurray was reached on the return journey on the 18th inst. The treaty party went thence to Wabasca and Mr. McClelland came on up by canoe, reaching the Landing in 11 days.

About twenty miles this side of McMurray he passed the Hudson's Bay Co's steamer on its way up. There were on board the following passengers on their way out to Edmonton: Miss Vieth, of Hay river mission; Bishop Young, Bishop Reeves, Bishop Grouard, C. W. Mathers, photographer of Edmonton, W. T. Levey, of the H. B. Co., Batterbury, a steamboat engineer, and the Preble brothers, who went down in the interests of the United States government to collect specimens of the flora of the country. They will probably reach Edmonton to-day or to-morrow.

At Chipewyan an Indian was under trial before Rev. Warwick, charged with having set fire to the H. B. Co's warehouse at Providence last winter. The warehouse and contents were totally destroyed.

W. G. Gibson waited over at Fort Smith to bring out Wm. Connor's fur. Shot was also there to bring out Hyslop & Nagle's. They will be at the Landing about the middle of September.

Peter Lute's and Colin Fraser's first boats were met at Grand Rapids.

Mr. McClelland, speaking of the scrip issue, said that not half as many scrip were issued as was expected. A great number of claims were disallowed and considerable dissatisfaction existed. According to the contention of the applicants for scrip it appears that when the first treaty was made by Commissioners Laird and Ross a number of half-breeds were asked to take treaty in order to induce the Indians to follow suit. The half-breeds were given to understand that if they wished to they could change later and take scrip. On the coming of the present commissioner, in accordance with this supposed arrangement, they returned the money they had received as

treaty and applied for scrip. This was refused them and they were left the choice of taking treaty or nothing. At Chipewyan this trouble was particularly prominent.

BRICKLAYERS' KIDNAP.

There is \$5 a day and a job till first catch for good brick layers in Edmonton. Work on the erection of new buildings is delayed for the want of men who can lay brick. The outlying country has been drained of its masonry artists, but still demands excessive supply and proprietors wax indignant and contractors hunt and hustle in vain. The new school is not going up as fast as the trustees think it should, because the contractor can't get men; the new Presbyterian church is another building the erection of which is being greatly delayed for the same reason. About all the available brick-laying mechanics are employed on J. A. McDougall's new residence, and as a result that building is making good progress. The weather is perfect for building and it is the hope of getting men so that work may be rushed that leads contractors to offer Kidnapke prices.

THE DROWNED.

The Victoria Times of Aug. 24th, contains the following death notices: Ross—On the 15th inst., Barbara Elizabeth, beloved wife of James Hamilton Ross, governor of the Yukon, a native of Prince Edward Island, aged 37; also, William McKay Ross, infant son, aged 1 year.

The funerals will take place from the residence of Mr. John McKay, No. 4 Battery street, on Sunday afternoon at 2:30.

Robert—Hamilton B. Foote, master mariner, drowned in Stephen's Passage, Alaska, on August 15th.

The funeral will take place from the family residence, on the corner of Cook and Caledonia avenues, on Sunday afternoon at 2 o'clock, from Christ Church Cathedral at 2:30 p. m.

Speaking of the deaths by the wreck of the Islander the Times says:

The late Mrs. J. H. Ross was a native of Prince Edward Island, and was 37 years of age. She leaves six children—two sons and four girls—the eldest about twelve. The infant which perished with its mother is a lusty little boy, who will be remembered by many who noticed him during his mother's three months' visit here prior to going to Dawson.

The late Captain Foote leaves a widow and three children—two boys and a girl. Mr. Foote is refused to credit the news of her husband's death, firmly believing that he would return to her on the Islander. Even after his remains were brought, she wanted to identify them personally before believing the news.

LOST TREASURE.

Victoria Times: Some difference of opinion exists as to the amount of gold on board the Islander when she went down. The estimate ranges from one-quarter of a million up to two million, while in some quarters the ill-fated steamer is said to have had one of the largest consignments of treasure yet brought out. Possibly the exact amount will never be known, as a number of individual fortunes were lost. Constable Joyce of the Mounted Police who had been stationed at Dawson says there were four boxes of bank gold containing 350 pounds each or a total of 1,400 pounds.

Estimating it roughly at \$200 per pound, would bring the amount up to \$280,000. Then there were individual amounts such as that of Mr. Hart, some of which had been consigned to the care of the steamer. Mr. Hart said on Sunday night that his grip contained \$85,000, and he understood that one of the passengers who were dropped had an equal amount. Probably the treasure on the steamer was something over \$400,000.

BATTLEFORD.

Herold, Aug. 21.

The machinery of Prince Bros' new grist mill has been shipped, and the work of unloading the building for its reception will be begun about the 1st Sept. They are also bringing in an expert miller to run the establishment.

Gordon Bros. started a shipment of 225 fat steers for the railway on Thursday last. Mr. Robert Gordon, who selected them, says they are the finest he has seen, and is of the opinion that no better lot will reach Winnipeg this season.

A complimentary ball in honor of the returned Battleford men, who had served in South Africa, was held in Battleford on Aug. 15th.

OLDS.

Oracle, Aug. 23.

The young daughter of Mr. Snyder, of Disbury, who was a victim of accidental shooting last week, is rapidly recovering.

Homestead and railway lands are being rapidly taken up. Last week H. B. Hendrix and nephew, of S. Dakota, spoke for one section of government land and three of railway land, and W. Logan and H. Barner of Parker, Iowa, have secured three sections of land.

Those who argue that clover cannot be grown in this country should take a stroll along the railroad track where the seed has dropped from the cars and taken root. The section men say it is becoming quite a nuisance on the road.

Two brothers, named Gambell, from Dakota, but more recently from Lacombe, are in company with their families, establishing a ranch 60 miles east of town. They have a large bunch of cattle.

Rev. Dr. Robertson, superintendent of Northwest Presbyterian missions, delivered an address in the Presbyterian church last Tuesday night.

Carstairs' (Tenn. Ten Kansas men stopped off here on their way to the west, but were not allowed to pass. They are being held out that is, fall wheat, and barley, and the oats are looking fine. Carstairs had a crop laid out on Aug. 15th which was celebrated by sports. There was a large attendance and a good time.

LACOMBE.

Advertiser, Aug. 26.

Early Friday morning in the presence of a few friends at the home of the bride's parents, Calgary, H. H. Trimble, advocate of Lacombe, and Mary Jane, second daughter of Mr. and Mrs. E. B. Trimble, were united in marriage, Rev. O. Gronlund, B. A. of Calgary, performing the ceremony.

Business generally has been quiet during the past two weeks, the farmers all taking advantage of the excellent haying and harvesting weather. The weather was, threatening on Thursday and Friday, but is again propitious for Alberta No. 1, and the crop prospects were never so bright.

J. Taylor has disposed of his interest in the firm of Morris & Taylor to Norman Morrison, so long and favorably known in connection with MacLeod's store. The new firm name will be C.E. Morris & Co. Mr. and Mrs. Taylor will leave for Manitoba shortly.

The Merchants Bank take possession of their commodious new quarters in the Vickers block this week.

NOTICE.

To Owners of Stationary Engines and Threshing Engines.

The attention of Owners of Stationary Engines and Threshing Engines in the Territories is directed to the provisions of the Steam Boilers Ordinance providing penalties for the employment of men to operate such engines who are not in possession of proper certificates of qualification issued by the Commissioner of Public Works.

The Ordinance provides that every Engineer in possession of a Provisional or Final Certificate must exhibit the same, and Inspectors of Steam Boilers have been instructed to lay the necessary information against parties employing engineers who are not in possession of such Certificates, and against all persons operating such engines without being in possession of Certificates.

"Economy."

Some People look at Price only.

Quality and Price Both Right is True Economy.

If you can buy a Range once that will last a lifetime (and a long one) you put money into your pocket and save repair bills.

The perfection of all Ranges is reached in the Range that will work equally well with soft coal or wood; bake, roast, broil, seethe or fry to perfection; heat all the water you need almost instantly; properly used last a lifetime, and save its cost price.

Majestic Malleable Iron Range and Steel

does all of it, and will not clog with ashes and clinker, allow smoke and soot to escape into the kitchen, crack or break, or subject you to the expense and annoyance of every other Range.

Made of MALLEABLE IRON and best open hearth cold-rolled steel, 10 to 50 per cent heavier throughout than any other Range. Flues lined with pure asbestos, and the entire Range riveted with the best Norway iron rivets. Air-tight and dust-tight. This explains why a Great Majestic Range will do its work in half the time, and with half the fuel.

PARTRIDGE HILLS.

The weather for the past few days has been cool and farmers are very anxious, as the wheat is not ripe yet, and the cool nights are keeping the harvest back.

The barley is ripe and the binders are busy. Crops everywhere look well, and if we get a few weeks more fine weather an abundant crop will be reaped.

The Misses Towkey, after spending two weeks with friends here, left for home Saturday.

Quite a number of our young people took in the Agric. picnic and report a splendid time. Our boys won in the game of baseball between Partridge Hill and Agricola. Then a picked club of Partridge Hill and Agricola played a nice picked from Clover Bar, Strathcona and Edmonton and won. We don't believe in boasting, but would just like to say that with a little more practice our boys would be second to none in those parts.

Miss F. Faint's many friends are pleased to see her looking so much better, and we hope she may soon be fully restored to health.

Miss Annie Alton, who has been visiting at her grandfather's, Mr. Jos. Alton, Sr., was taken suddenly very ill. She has been removed to her home in Strathcona and placed under medical care.

Mrs. McClellan has been quite ill, the doctor pronounced her as suffering from exhaustion caused by the intense heat of last week.

The people were delighted last Sabbath to see Rev. A. Forbes in his accustomed place; looking much improved after his enforced rest, although his voice has not yet recovered. Mr. McClellan accompanied him on Sabbath and officiated. He preached an earnest, eloquent sermon, and those who were present enjoyed a real treat. Mr. McClellan has lately arrived from Scotland to engage in missionary work here in our wide west.

The engine of the Partridge Hill joint stock company's outfit went up to Edmonton this week for repairs. The company are making ready to do a big season's work.

Mr. Graham, agent for Massey-Harris Co., is doing a good business around here, having sold three binders in this neighborhood to Mr. Peter Rye, Mr. R. T. and Mr. Davis.

Aug. 23, 1901.

WHITE WHALE LAKE.

What fine hay weather we are having now. One could not desire better. And what a magnificent hay crop there is, especially the wild pea mixture of which both horses and cattle are so fond. So that every hour's cutting with the mowing machine is a real treat. Of course it is only on the upland one can gather it, as the sloughs and lowlands are out of reach this summer. Nothing but laziness need prevent almost any one from getting an ample supply, for nature has been lavish of her natural resources.

Our grain crop, while still small in comparison with such districts as Stony Plain, is many times as large as it was last year, and from present appearances promises a satisfactory yield. Several of our settlers are after binders to get ready for the rush of ripening.

We have had as much and as varied "weather" as other localities, barring the hail; and as a result creek bottoms have been flooded, bridges swept away and roads next to impassable. The Indians do not remember anything like it before.

Our Indian missionary, Mr. D. H. Lent, and his wife and child, who went to Edmonton for July last celebration, when he got back as far as the south side of the reserve, had to remain at the residence of the farm instructor, Mr. W. C. Hewitt, from Friday (till the following Wednesday, until sight of home, yet unable to reach it, till the waters had subsided sufficiently to permit of repairing roads, rebuilding bridges. Necessity seems to point to the wisdom of selecting a new location for our main road and bridges across the reserve.

Slowly but surely the settlers are coming, and several parties of land seekers seem to show that more will soon arrive.

Treaty payment to the Indians passed off very quietly, there being no incident to mar the pleasures unless it be the rain. As Pierre Grey had been caught with liquor last year he was refused permission to trade on the reserve this time. However, he quietly ignored orders to the extent of encroaching nearly a quarter mile within reserve limits. Immediately after treaty payment a large number of our Stoney started on a visit to Morley. Their excuse for going was a desire to purchase horses, their own having largely died off last year because of neglect. To go at this time meant neglect of work in hay cutting and gardening and preparing their houses for winter. When they return many will be begging for help and supplies. They should have been ordered back to the reserve to attend to business. Those at home are doing fairly (for them) at laying. The absentees are just now on the way home with a bunch of ponies.

The death rate among the Stoney this year is very low, compared with last year.

The berry supply especially of raspberries was very large and long continued this summer. Some who came from Edmonton were

amazed at the extent, and only regretted they had not made more ample preparation for gathering them. There seems no reason why a profitable business could not be carried on shipping the berries to Edmonton by boat.

Lumbering still goes on to supply the growing demand for building material in town.

AGRICOLA.

Last Monday Mr. Hugh Irving cut barley and on the following Wednesday he cut wheat. Mr. Joe Toane on the same day had barley threshed. How is that for Agricola?

Mr. Jones, who sold his place to Wm. Thos. Sward, has bought out a feed and live stock in Ponoka and moved down last week.

Ed. Walker, engineer, has been engaged to run the engine for the Agricola Threshing Company, for this season.

Agricola still continues to hold its own as a live district. The picnic on Tuesday last in Pearce's grove, where a most enjoyable time was spent by a large number of people, is proof of the above statement. The baseball match between Partridge Hill and Agricola clubs resulted in 11 to 8 in favor of the former. The Maple Leafs did not get wakened up till they faced the star players who came out from Edmonton and Strathcona to help Clover Bar club do the feature, but Tommy Sward, Agricola's star pitcher, kept Bill and McMillan guessing and they are guessing yet. They didn't do a thing but chop. The match was between a picked team from Partridge Hill and Agricola against Clover Bar with their imported players. Score 4 to 3 in favor of the former club, with 1 innings to spare. The football match between Clover Bar and Agricola resulted in the defeat of the Agricola invincibles. They went into the match, not one having kicked the ball this year, and of course were soon winded. The day of reckoning is coming, when they meet again. Mr. T. G. Winsor amused the children with his gramophone.

PATENTING RAILWAY LANDS.

Ottawa, Aug. 22.—The department of the interior reports in connection with the patenting of railway lands in Manitoba and the Northwest Territory that there has been patented to the Canadian Pacific Railway Company up to date about 9,000,000 acres, comprising lands on the main line and also a portion south of it, as well as a large quantity in Northern Alberta. The department has also patented practically all the lands under the land grant to the Alberta Railway and Coal Company. This comprises about 1,000,000 acres. The Calgary and Edmonton have received patents for 45,000 acres. This makes over 10,000,000 acres, for the bulk of which patents have been issued since February last.

MANITOBA CROPS.

Commerce. 1. Aug. 24. Damp weather and light rain during three days of the week interfered to some extent with harvesting operations in some parts of the country and to a certain extent with business also but at the time of writing everything looks bright again and by to-morrow it may safely be said that a large proportion of the wheat crop has been cut. So far as the outlook for the crops is concerned there is nothing new to report. Conditions are highly favorable. Some carloads of the new wheat have already been inspected and graded No. 1 hard. It is beginning to be the opinion in business circles that the yield per acre will be smaller than estimates of a month ago.

To Save Her Child.

From frightful disfigurement Mrs. Annie Gallagher, of La Grange, Gra., applied Buckner's Arica Salve to great scars on her head and face, and within its quick cure exceeded all her hopes. It works wonders in Sores, Bruises, Skin Eruptions, Cuts, Burns, Scalds and Piles. 25c. Cure guaranteed by D. W. Macdonald, Druggist.
